

## COURSES TAUGHT

| <i>Academic Term</i> | <i>Courses Taught</i> | <i>Credit Hours</i> | <i>Enrollment</i> | <i>GPA</i> | <i>Description</i>     |
|----------------------|-----------------------|---------------------|-------------------|------------|------------------------|
| Fall 1996            | MTH 151               | 5                   | 37                | –          | Calculus I             |
|                      | MTH 347               | 3                   | 16                | –          | Differential Equations |
| Spring 1997          | MTH 151               | 5                   | 34                | –          | Calculus I             |
|                      | MTH 347               | 3                   | 16                | –          | Differential Equations |
| Fall 1997            | MTH 153               | 4                   | 38                | –          | Calculus I             |
|                      | MTH 641               | 4                   | 2                 | –          | Measure Theory         |
| Spring 1998          | MTH 251               | 4                   | 38                | –          | Calculus II            |
|                      | MTH 251               | 4                   | 37                | –          | Calculus II            |
| Fall 1998            | MTH 151               | 5                   | 39                | –          | Calculus I             |
|                      | MTH 451/551           | 3                   | 4                 | –          | Complex Analysis I     |
| Spring 1999          | MTH 251               | 4                   | 39                | –          | Calculus II            |
|                      | MTH 651               | 3                   | 16                | –          | Complex Analysis II    |
| Fall 1999            | MTH 151               | 5                   | 69                | –          | Calculus I             |
|                      | MTH 331               | 3                   | 16                | –          | Discrete Mathematics   |
| Spring 2000          | MTH 251               | 4                   | 24                | –          | Calculus II            |
|                      | MTH 331               | 3                   | 19                | –          | Discrete Mathematics   |
| Fall 2000            | MTH 151               | 5                   | 38                | 2.56       | Calculus I             |
|                      | MTH 151               | 5                   | 37                | 2.48       | Calculus I             |
| Spring 2001          | MTH 651               | 4                   | 3                 | 4.00       | Measure Theory         |
| Fall 2001            | MTH 151               | 5                   | 54                | 2.31       | Calculus I             |
|                      | MTH 451/551           | 3                   | 2                 | 4.00       | Complex Analysis I     |
| Spring 2002          | MTH 251               | 4                   | 30                | 2.50       | Calculus II            |
|                      | MTH 251               | 4                   | 30                | 2.04       | Calculus II            |
| Fall 2002            | MTH 251               | 4                   | 35                | 2.26       | Calculus II            |
|                      | MTH 641               | 4                   | 5                 | 4.00       | Measure Theory         |
| Spring 2003          | On ARA leave          | N/A                 | N/A               | N/A        | N/A                    |
| Fall 2003            | MTH 151               | 5                   | 68                | 2.5        | Calculus I             |
|                      | MTH 441/541           | 3                   | 17                | 3.23       | Real Analysis          |
| Spring 2004          | MTH 251               | 4                   | 17                | 2.7        | Calculus II            |
|                      | MTH 441/541           | 3                   | 18                | 3.12       | Real Analysis          |
| Fall 2004            | MTH 153               | 4                   | 37                | –          | Calculus I             |
|                      | MTH 153               | 4                   | 34                | –          | Calculus I             |
| Spring 2005          | MTH 442               | 3                   | 2                 | 4.00       | Real Analysis II       |
|                      | MTH 347               | 3                   | 16                | –          | Differential Equations |
